Milk that eco fund

DAIRY farmers are to be given Government cash to make their milking sheds greener.

Dairy fund to curb climate change

Cianan Brennan
Ireland Business Reporter

Dairy farmers are set to benefit from

the second year running. It also will miss by some distance its European Union-mandated 2020 and 2030 targets in relation to the production of

Jim Gannon, chief executive of the SEAI, said. He added that the equipment covered by the fund "can reduce energy consumption by 60 per cent",

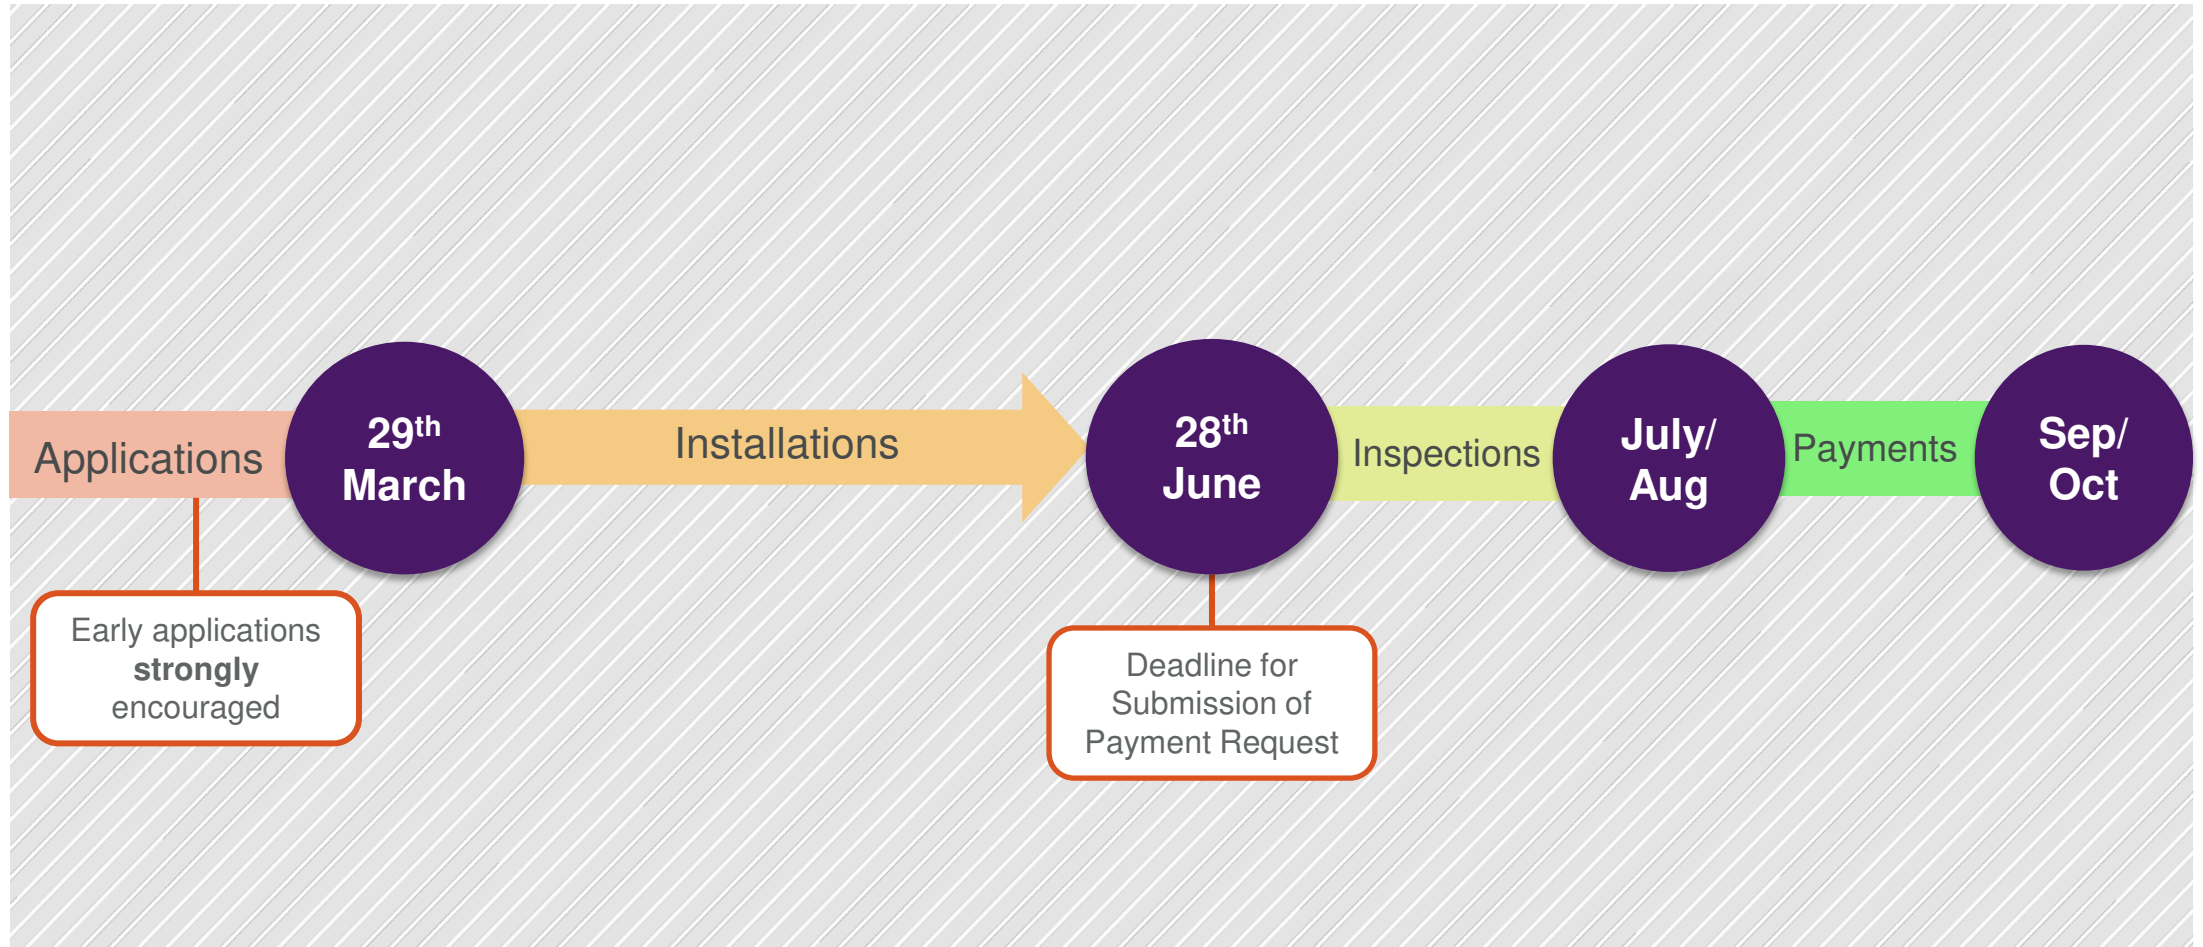

SEAI @SEAI_ie · 2h

The dairy farm grant is back! To date, we have funded over €470,000 to dairy farmers through this grant, offering up to 40% of the cost of installed items, with an average grant payment of €4,000. Learn more about how you could benefit:
